Sherman on the Ohio Election.

WASHINGTON, Sept. 24.—Senator Sherman told a prominent gentleman on a train in Ohio, Friday, that the campaign in that state was close and doubtful.

"I think," he said, "that the republicans will elect most of their ticket next month, but it does not signify that the party which carries Ohio in October will carry it in November. The letter of Blaine upon his domestic affairs was a very foolish production. He is certainly surrounded with bad advisers."

CAN'T SWALLOW HIM.

Brinkwater, who welcomed the delegates to the first convention of the people's party and the true democratic party of the country. He welcomed all, no matter what their former political affiliation might have been, and then alluded to the wonderful campaign made by Butler last year, notwithstanding all opposition.

It having been announced that Butler would reach Worcester at noon a motion for the convention to adjourn in time to proceed to the depot in a body and escort their candidate to the hall prevailed.

John W. Galvin, of Boston, was elected temporary chairman. The Chair then announced the different committees.

The committee on credentials reported 31 cities and 394 towns represented by 1,489 delegates. At noon the convention adjourned until 2 o'clock and 1,500 delegates marched to the depot and escorted General Butler to the Bay State house amid great enthusiasm.

Mrs. Carl Meyer has received a letter from her husband in Germany in which he states that he is improving. He announces his determination to go to Italy during the winter if he does not fully recover.

The attention of the police is called to a disreputable joint over 110 Calhoun street. It is tough enough for these dregs to exist on the outskirts of the city, but from the main thoroughfare they must go.

A \$16 rate from Chicago to New York was yesterday made over the counters of all the east-bound lines on first-class passenger business. This is a cut of \$4, and the indication points to still further reductions in the future.

Building permits have been allowed to Edward Mitelli to erect an addition to his house on lot 379, Hanna's addition, at a cost of \$150 and to D. Neyar, to build an addition to his dwelling, on lot 3, Hanna's addition, to cost the same amount.

It is pretty generally conceded that most east-bound roads are carrying grain to New York at a 20-cent rate, a cut of 5 cents per hundred. It is charged that the Erie roads are making a 15-cent rate. Business is getting badly demoralized, and shippers claim that they can get any rate they ask.

The schools in St. Joe township open a week from next Monday. The teachers are: District 1, Miss Eward; 2, Miss Mary O'Brien; 3, Miss Donnell; 4, Miss Hattie Shell; 5, Samuel H. Davis; 6, Miss Quinn; 7, Miss Lizzie Bennett; 8, Miss Lillie Shorden; 9, Miss Lulu Russell; 10, Miss Mattie Leonard; 11, Lucinda McConnahey; 12, Miss Jessie Conkling.

The managers of the St. Louis exposition have designated September 30 as a special "Wabash day," and extraordinary efforts will be made to entertain visitors from points on the line of the Wabash, St. Louis and Pacific railway on that day. Excursion tickets to St. Louis and return will be sold at the rate of about one cent per mile. For particulars inquire of ticket agents.

The city council met last night, but did no important business, as only eleven members answered to the roll call. A few petitions and reports were read and the following bills allowed: Joseph A. M. Storm, \$1.60; Peters' Box and Lumber company, \$21.20; Janu Roessman, \$5; H. C. Berghoff, money advanced, \$10.25; F. Ruffold, \$5.50; Thomas S. Heller, \$4.25; M. Frank, 90 cents.

TELLING TRUTHS.

The Telling Democratic Speeches Made by Messrs. Hord and Kern.

The democracy had a "field day" yesterday in spite of the rain, and the Pleasant Lake excursionists accompanied by their distinguished guest, our next vice president, returned in the evening in high spirits. The program for the day included speeches in the court house yard in the evening, at which time Hon. Francis T. Hord, the attorney general, and Hon. John W. Kern, candidate for reporter of the supreme court, were to address the people. It was hoped and expected that Governor Hendricks would also address the audience briefly, but on his return from the lake he was so exhausted from the constant demands made upon him from the time he left Indianapolis Monday afternoon, that he was forced to abandon his intentions in this respect.

A great crowd gathered in the court yard and in the streets adjoining when the time for opening the meeting approached. It resembled an old time rally in its proportions and included many ladies, who braved the threatening rain which promised to come upon them at almost any moment. Judge Lowry, our present and coming congressman, was president of the evening and introduced the first speaker, Mr. Hord. Mr. Hord made a masterly effort—one of the finest and most argumentative heard here during the campaign. He at once assumed the defensive and with matchless skill and eloquence drove the republican party from every breastwork where they had intrenched themselves. His definition and explanation of the tariff was so plain that a child might understand. He proved conclusively that the consumer of the articles upon which a tariff is laid pays its tax, and not the manufacturer or importer; he showed how this excessive tax, which added a great surplus to the needs of the government, benefited only a few to the detriment of the many; he demonstrated by a letter written by Blaine a few years ago and by the report of Mr. Wells, a former secretary of the navy, that many articles manufactured in this country were sold in European markets, competing with pauper labor and he plainly demonstrated the fallacy of the benefits of this high tariff on the price of labor by showing the actual per cent. of the cost of labor which was always far below the benefit derived from the tariff. He scathingly referred to the condition of our navy which has for twenty-five years been under republican protection and reiterated the fact that our products were carried by foreign vessels to whom we paid tribute; that our country was defenseless to-day against an invasion from a foreign power, (at this juncture an Irishman standing near said: "That's a fact, Spain could whip us to-day,") and that our flag was seldom seen in a foreign port. He showed the farmers the effect the high duties had on the price of their grain by compelling them to pay the cost of transportation and the duty levied on goods in return for the wheat, compelled the buyer to exhaust the market elsewhere before coming to this country. The reference to the presidential candidates brought forth cheer after cheer as did many other portions of his speech and at its conclusion there was long and loud applause.

At the conclusion of Mr. Hord's address there ascended a united cry from the crowd for Hendricks, interspersed with frequent cheers. As soon as he could make himself heard Judge Lowry stated that Governor Hendricks was unable to be present, owing to the great fatigue which he had undergone. The crowd was much disappointed, but good humor quickly accepted the situation and gave close attention to Hon. John W. Kern, who briefly addressed them on points of interest to the laboring man. His speech, like the one preceding was full of brilliant argument and forcible thrusts at the party which brought enforced idleness to over 700,000 men. He was loudly cheered and at the conclusion of his address the crowd dispersed taking with them the sound reasoning and the plain presentation of facts which had been held up before them.

The Pleasant Lake Rally.

Seven thousand people were at Pleasant Lake yesterday to greet Hon. Thomas A. Hendricks, Hon. John W. Kern and Hon. Robert Lowry. The Jeffersonian excursion party filled fifteen coaches, and the people marched from the depot around the lake to the grand stand, where Governor Hendricks, Hon. Robert Lowry and John W. Kern made master addresses to the assembled multitude.

The village was handsomely decorated and with the combination of bands and drum corps the resort resounded with pleasant music and martial tread. A feature of the occasion was the presence of seventy young ladies attired in national colors. On the whole the occasion was a gala one and the participants returned last night highly pleased.

Death of George Thieme.

Early this morning George Thieme succumbed to disease and peacefully passed away. About two weeks ago he was taken suddenly ill and grew rapidly worse until his life was despaired of. Mr. Thieme long drove the Anthony Wayne fire steamer, was a valued member of the department, and a young man of exemplary habits. He was a member of the Jeffersonian club and had hosts of friends. Mr. Thieme leaves a wife and two small children, and was a son of Mr. and Mrs. Andrew Thieme, of Broadway. The engine house is draped in mourning out of respect for the dead fireman.

It was a wise one that said: "Every man is occasionally what he ought to be perpetually." This must be when he is honest enough to acknowledge the merits of Dr. Bull's Cough Syrup, the only sure cure for coughs and colds.

Early this morning a sneak thief stole an overcoat and a dress coat from the dummy in front of Friend's clothing store. The theft was not discovered for some time and the rascal got away with his booty. Marshal Meyer is looking for the slick cove and will see that he does not wear the garments about town.

All weakness and ill health owes its origin to an impure state of the blood and weakness of the urinary and digestive organs. A medicine that will strengthen these organs, and at the same time purify the blood, will assist nature in curing nearly every disease, that human flesh and blood is heir to. Such a remedy is Dr. Guyott's Yellow Dock and Sarsaparilla, and, although it possesses no cathartic or drastic effect, its use will soon establish a regular habit of body as well as cure weakness of the kidneys, indicated by urinary sediments, nervousness, etc.

Everybody's Harvest.

Pierre's Fair, 60, Calhoun street, have opened the fall season with the most complete line of fall and winter goods in the city, they are therefore now prepared to show to the public the choicest and best goods for the least money. It is impossible to give full details of the many bargains they are offering in their lines of dry goods, notions and millinery; but we can safely state that one visit to their establishment and an examination of prices will convince the most sanguine that their prices are the lowest. Their millinery department, as everybody knows, is the most popular in the city. And as they are receiving daily new goods, their stock is always alive with the latest novelties. Together with these advantages for every fifty cents worth purchased you receive a free ticket on the plush parlor suit to be given away at

MAINE HEARD FROM!

The Maine question is now answered as to the most durable shoe for children. The "little ones" take about twenty steps to an adult one. It is no surprise that the restless feet soon kick their way out.

Parents are in constant trouble about how to keep their children's feet neatly clad, unless they belong to the happy throng who turn these cares over to W. H. Fleming who always carries a large stock in a specialty for children that is neat, and very durable, in button or lace, light or heavy, heel or no heel. The council will not convene again for three weeks.

Rheumatism is clearly a species of blood poisoning; that is, the blood of the victim is impregnated by unhealthy and unobstructive acids that penetrate the entire system and give rise to those rocking pains that render life a burden. The reason that Atholpore invariably proves efficacious in dealing with this disease is, that it at once attacks the cause. It enters the life current, and its action drives out the poisonous humors that have impaired the circulation, deprived the muscles of their natural functions, and so stiffened the joints as to make them worse than useless to the unhappy victim of rheumatism.

A Popular Fallacy.
Many people think that rheumatism cannot be cured. It is caused by a bad state of the blood which deposits poisonous matter in the joints and muscles causing lameness, stiffness and swelling of the joints and excruciating pains. Kidney-Wort will effect a cure. It acts on the Kidneys, Liver and Bowels, stimulating them to a healthy action, purifies and enriches the blood and eliminates the poison from the system. Go to the nearest druggist, buy Kidney-Wort and be cured.

True Merit Alone
has given Alcock's Porous Plasters the largest sale of any external remedy in the world. If you have been using other kinds of plasters, one trial of "Alcock's" will convince you of their wonderful superiority.

66 Broadway, Room 62, New York, March 2, 1883.

Having been cured of a severe attack of rheumatism of the neck and shoulders by Alcock's Porous Plasters, I feel it my duty to strongly commend their use to any one similarly afflicted. For a period of several months I had exhausted many other so-called remedies without obtaining the slightest relief. Finally I applied one of Alcock's Porous Plasters, and found myself almost immediately cured. I consider them a true blessing.

Faithfully yours,
JAMES B. HOSMER.

Beware of Scrofula
Scrofula is probably more general than any other disease. It is insidious in character, and manifests itself in running sores, pustular eruptions, boils, swellings, enlarged joints, abscesses, sore eyes, etc. Hood's Sarsaparilla expels all trace of scrofula from the blood, leaving it pure, enriched, and healthy.

"I was severely afflicted with scrofula, and for over a year had two running sores on my neck. Took five bottles of Hood's Sarsaparilla, and consider myself cured." C. E. LOVELL, Lowell, Mass.
